ARIZONA ALLIANCE OF RETIRED AMERICANS
March 2009

The Arizona Alliance visited our Congressmen and senators with the following agenda:

First we wanted to introduce ourselves and explain why we exist and gave them a letter (included in packet).

Secondly, we spoke about our goals for retirees and children.
We discussed

* Privatizing of Social Security using the recent financial spiral
* The need to address the Part D Prescription plan
* The Medicare Trust Fund and Medicare Advantage
* The creation of a senior advisory panel
* Long term health care

Although we did not meet with the senators or Congressmen, we did meet with staff people who assured us our positions and concerns will be given to their bosses(?)
